Aspiring software developer with a strong passion for technology and a keen interest in programming. I am dedicated to learning and improving my skills through online courses, personal projects, and collaboration with peers. Eager to apply my problem-solving abilities and creativity to develop innovative solutions. Currently seeking entry-level opportunities to grow my expertise in software development and contribute to meaningful projects

Projects

Bug Bard Website

- As part of my college coursework, I developed a front-end for a software development service website called Bug Bard. The project involved using HTML, CSS, and JavaScript to create an engaging and user-friendly interface. I integrated icons from Font Awesome and incorporated various design elements sourced from different websites to enhance the visual appeal and functionality. Additionally, I prepared a comprehensive synopsis report detailing the project's objectives, design choices, and implementation process.

Snake, Water, Gun game (Python)

- As part of my online course, I created a Snake Water Gun game using core Python. The game operates in the VS Code terminal and follows a format similar to Rock-Paper-Scissors, allowing players to compete in a text-based environment. This project enhanced my programming skills and deepened my understanding of game logic in Python.

Jarvis Virtual Assistant (Python)

- I developed Jarvis, a voice assistant application using Python. The assistant is capable of performing various tasks, such as playing music and providing information. I utilized several libraries, including SpeechRecognition for voice input, pyttsx3 for text-to-speech functionality, and webbrowser for accessing online resources. Additionally, I integrated music playback features and leveraged APIs for enhanced information retrieval. This project allowed me to explore the intersection of voice technology and automation.

Education

Geetanjali Institute of Technical Studies, Udaipur

- Master of Computer Applications (2024- Present)

Aishwarya College, Udaipur

- Bachelor of Computer Applications (2021-2024)
72 Percentage overall

The stanvard sr. sec. school

- 12th arts (RBSE)- 80%, 10th (RBSE)- 65%

Skills

- C & C++
- Python Core
- Java Core
- JavaScript
- MySql
- Html, CSS
- Git&Github
- Autocad, 3DS Max
- MS Office
